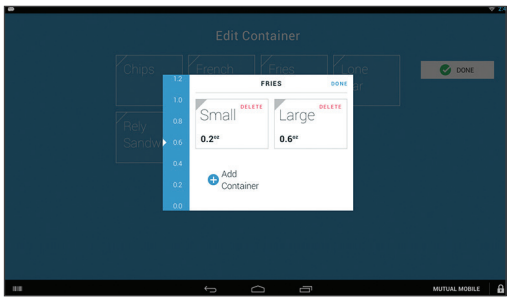
Weigh & Pay

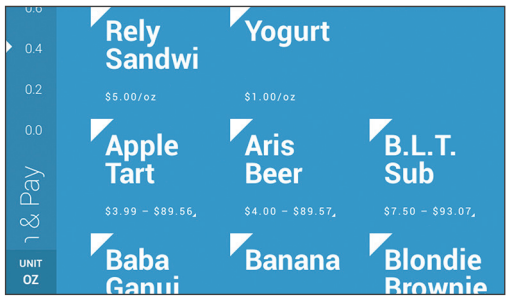
by Mutual Mobile

Interface with a scale in order to sell items by weight

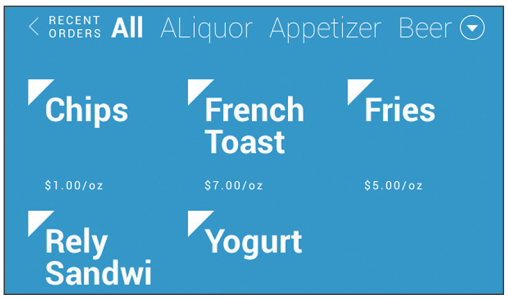
Weigh & Pay is designed for weight-based item sales. With this app you can set prices for weight-based items, automatically subtract container weight, view the readout on a Clover Station, create orders, add discounts, and check out with Clover's main Register app.
(Note: This app requires the Clover Custom-Weight Scale: CAS SW-RS (20 lb.).)



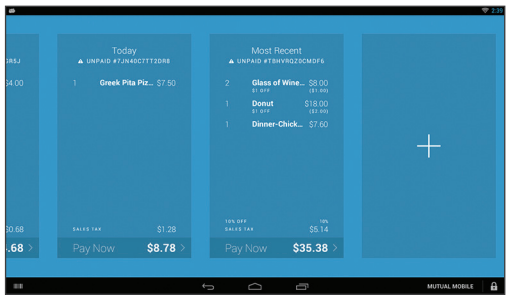
Set up tare weights for each of your containers to subtract its weight in sales



Scale information right on the screen for when you are ringing up orders



Your menu prioritized with items sold by weight listed first



Recent orders lets you pick up where you left off on unpaid orders
