

Shopify Integration by Patchworks

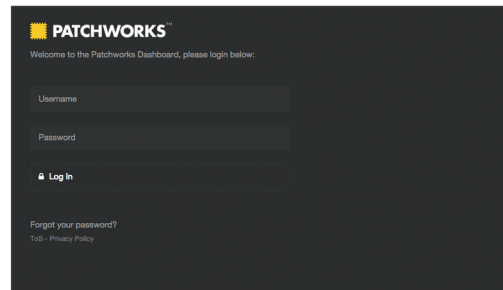

Save time, save money and sell more. Focus on making sales instead of juggling data with Patchworks' Shopify Integration.

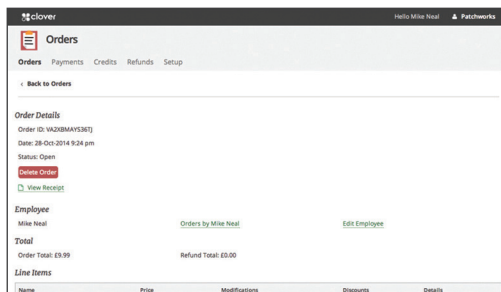

Patchworks supercharges your business by transferring all online sales directly into Clover and maintaining accurate stock levels across both systems. Quick to download and easy to use, Patchworks' Shopify Integration takes the pain out of trading online and in-store.

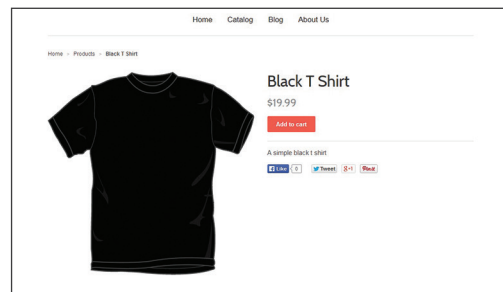

Patchworks' Shopify Integration is simple to download and installs automatically on your Clover system

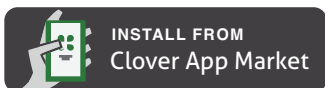

Complete our simple online form and we do the rest

Now enjoy automatic order sync, when a customer places an order on your website Patchworks ensures all relevant data ports straight through to your Clover system

Thanks to Patchworks you'll also have a unified stock level, no juggling data and no orders for products you don't have in stock. Simple.
